ROLLER DEBY DEMONSTRATION

MONDAY, August 15, 2022

Time: 1:00 PM

M. Briggs Center

Coordinator: Rocky Roland

Phone: 512-718-9666

Most people remember watching roller derby on TV Saturday mornings as a kid. At that time, it was a lot of theatrics and what resembled wrestling on roller skates. Since then, roller derby has evolved to be taken seriously as a sport.

Roller derby is the only contact sport played primarily by women. What started as Saturday morning entertainment, has now expanded to a world-wide sport from small town recreational leagues to professional level ranked teams.

On Monday, August 15, you will have the opportunity to meet some members of Alpena's own roller derby team, The Shipwreck Alley Rollers. Red Zeppelin, L.Break-yerbones, Hail Mary, and other team members to be determined, will teach you the basics of roller derby and explain how points are scored, what roles each player has, and some of the rules. We will also get into the fun stuff like what a legal hit looks like and some penalties and favorite moves of the skaters. Players will be gearing up and giving demonstrations. There will be time for questions, and we will have extra (clean) gear for you to try on and get your picture taken with the derby girls if you want. (Sorry, no skates for try on).

What is a conscience and how do we get one? We'll look at some of psychological, philosophical and theological theories on how we develop a conscience and then expand our inquiry into the concepts of ethics and morals. Modern ideas like situational ethics and moral hypocrisy will also be discussed. This will be a layman's approach with plenty of room for non-scientific discussion and exploration.

Rocky Roland is a retired USAF colonel, having spent 27 years as a pilot in the Air Force, with non-flying assignments in Beijing, China and also on the faculty Naval War College. A voracious reader, Rocky's reading list is broad and varied, often exploring esoteric areas of study. He was always interested in the study of psychology, motivation (from his years as an instructor), ethics and world religions and is often curious about "why" people behave the way they do.
